

Shadow-Block™ Backing Films

Product: Shadow Block P10 White

Technical Data

Face Material	6.5 mil White Polyester
Finish/Color	Gloss/White
Adhesive	3.0 Copolymer System (white)

Performance Characteristics

- High performance thermal laminating film designed for use as a backing film for wide format graphics.
- Very good opacity
- Used where high opacity and flexibility are required. Can be used for back-lit applications.
- Increased bond strengths.

Typical Properties

Guage (ASTM D645)	10.0 mils
Yield (typical)	2,240 sq. in / lb
Opacity (ASTM 1003)	19 %
PET Side Coefficient of Friction	0.40
Heat Seal Initiation Temperature @ 40 psi, 0.5 sec. dwell	170°F
Useable Temperature Range	170°F to 245°F

NOTE: This product is manufactured without the use of CFC=s or VOC=s

This information represents the typical values for this product. It is not intended to be used for specification limits, certification standards or other finite acceptance criteria. This laminating film is not intended for prolonged outdoor exposure.

Due to the wide variety of print medias available, compatibility testing should be performed prior to use.
